Overview of this Information Session

- Introduction: Dr. Rebecca Toporek, Department Chair, Department of Counseling, SF State University (she/they pronouns)
- About our program, our mission and our aspirations
- Programs, courses, and internships
- Admissions process
Acknowledgement

San Francisco State University is located on the occupied Ohlone Ramaytush and the Coastal Miwok territories and we humbly acknowledge that our opportunity to live and work in what is now called the San Francisco Bay Area is only possible by the sacrifice of many indigenous people historically as well as their contributions today.

We also acknowledge that we benefit from the many Black and Brown communities who have worked, often in unjust circumstances, to make the public university system possible in California as well as the U.S. as a whole.
OUR MISSION

- To train the next generation of counselor leaders
- who recognize that the liberation of all communities is only possible when an
- intersectional, participatory, community-driven approach to counseling is practiced.
- Our training program is grounded in the belief that counseling, as a field of practice, affords professionals the
- knowledge and skills needed to carry out social justice work
- via strengths-based healing and wellness, advocacy, critical consciousness development, and action-oriented scholarship and research.
